Greetings Commissioners,
Our founding Newspaper Cooperative has launched with a recent series on the Etowah Bluffs Rezoning Issue. Our most recent Article contained a Poll. Those Poll Results are in, and I wanted to share them. The results are attached as a 3 Page PDF.

The article can be found here: <https://cjc.news/2022/07/14/etowah-bluffs-dawson-county-citizen-poll-boc-same-old-tricks-part-5/>

The entire series of 5 articles can be found at the home page of the new site: <https://CJC.News/>

In the near future, as we reenter a time such as in 2008/9, when large developments attempted to refinance, snatch construction loans to launder money through their sub-construction entities, and do one last milking of the system, as the storm approaches, this newspaper cooperative will begin focusing on the Banks, Developers and Commissioners that all play a part in the revaluation and lending schemes that are intertwined as part of the corrupt development / banking / governmental trifecta. This will be similar to previous investigations which ended up in the closing of Appalachian Community Bank, and the arrest and imprisonment of several of their top officers, or perhaps the multi-year investigations into United Community Bank, and Union County Commissioner Lamar Paris.

I currently have grown to nearly 400 members on a Mailing List, and this time around will be paying for Investigative Reporting staff, encouraging Citizen Organizations, assisting in retaining or consultations w/ Attorneys for specific actions, etc. The initial focus will be on Dawson County.

It is my sincere hope that you will heed the will of the people in the upcoming Rezoning Vote today in regards to Etowah Bluffs. If you do pass this, then all you are doing is contributing to the Barry Connor Bailout fund with the banks.

The CJC is Watching.

May Peace be unto you (and yet this is your choice to make),

- david
